# Deodat Kimuene

St. Louis, MO          (314) 368-9774          dkimuene@gmail.com          Linkedin          GitHub

## CAREER OBJECTIVE

An adaptable Bootcamp graduate with knowledge of application development and web design. Aiming to leverage my mathematics abilities to fill Hub Group vacancy successfully. Frequently praised for communication by my peers, I can be relied upon to help Hub Group achieve its goals by incorporating going beyond what is expected of me and striving for excellence.

## SKILLS

Java  |  TypeScript  |  Javascript  |  React  |  Spring Boot  |  HTML  |  CSS  |  SQL  |  Git  Rest API  |
NodeJS/NestJS  |  MVC  |  Web Applications  |  Relational Databases  |  Unit/Integration Testing  |

## EDUCATION

**LaunchCode**                                                                                   St. Louis, MO
*Certificate of Achievement for LC101 Full-Stack Web Development Course*          *2022 -  2022*

**University of Missouri - Columbia**                                               Columbia, MO
*Completed coursework towards Master of Arts (M.A.) Mathematics*               *2017 - Present*
- Statistical Software and Data Analysis
- Mathematical Modeling
- Principles of Programming Languages

**Harris-Stowe State University**                                                   St. Louis, MO
*Bachelor of Arts in Mathematics*                                                        *2012-2016*
- Introduction to Programming
- Discrete Math I & II

## PROJECTS

### EMPLOYEE MANAGEMENT SYSTEM
- Built a full-stack web application to allow users to create new employees, readout current employees, update an employee's information and delete employees from the database.
- Utilized Java, Spring Boot, and Hibernate on the Backend for API calls.
- Utilized Angular and Bootstrap on the Frontend.
- Utilized MySQL for my database

### USER REST API
- Built a REST API  to allow users to create new users, readout of current users, update a user's information, and delete users from the database.
- Utilized NestJS on the Backend for API calls.
- Utilized MySQL for my database
- Utilized Postman to make calls to the API

## EXPERIENCE

**Wells Fargo** St. Louis, MO
*Securities Operations Representative* *2021- Present*
